Zoom in/out and up and down as necessary.

When finished, click on the 'box'  again, and it will return to the original page.

To go to page 2, click the arrow on the right side of 'Image 1 of 105' and image 2 will appear. Each time a page is completed, click the same arrow and the next page will appear.

I use an Apple Computer, but using Google should work on any computer.

If you do not have access to a computer, one is available at the Putnam County Library.
